

Creative Support Solutions

Creative Support Solutions Reaches Another Milestone!

In 1998, Marnell Robertson launched her long-time vision of establishing a consulting firm that provided the type of telecommunications operational support that was unavailable at the time. Specifically, she saw a need for a company that could provide support in the areas of billing, provisioning, and back-office processes.

Fifteen successful years later, Marnell is proud of the organization and the operational support and solutions that she and her staff have been able to provide to her clients. The industry has continued to evolve, creating new challenges but the staff of CSS has continued to find ways to meet the challenges. CSS continues to be committed to providing the highest quality back-office support, and the most effective revenue generating services to its clients.

On this 15 year anniversary, CSS President Marnell Robertson would like to offer her sincere thanks to her clients and staff for their trust in CSS, and for their ongoing support. More importantly, Marnell would like her clients and staff to know that she is eager to begin the next fifteen years of this journey!
